ACCELERATING PROGRESS TOWARDS A CURE

We are proud to announce the 6th International HBV Cure Workshop, scheduled on 6 November 2019 in Toronto, Canada. Since 2014, the HBV Cure workshop is a scientific platform that acts as a catalyst to accelerate the progress for achieving a cure. This meeting will bring together the world’s leading basic, translational and clinical experts to share, discuss and respond to the latest research outcomes and challenges.

6th INTERNATIONAL HBV CURE WORKSHOP
TORONTO, CANADA • 6 NOVEMBER 2019

MEETING CHAIRS

- Harry Janssen
  MD, PhD
  Toronto Centre for Liver Disease, Canada

- Stephen Locarnini
  PhD, MBBS, FRC
  Victorian Infectious Diseases Reference Laboratory, Australia

- Raymond F. Schinazi,
  PhD, DSc
  Emory University
  United States

ORGANIZING COMMITTEE

- Charles Boucher
  MD, PhD
  Erasmus Medical Center, The Netherlands

- Jordan Feld
  MD
  Toronto Centre for Liver Disease, Canada

- Adam Gehring
  PhD
  Toronto Centre for Liver Disease, Canada

- Pietro Lampertico
  MD, PhD
  University of Milan, Italy

- Mala Maini
  MD, PhD
  University College London, United Kingdom

- Fabien Zoulim
  MD, PhD
  INSERM, France
A MESSAGE FROM THE CHAIRS

The International HBV Cure Workshop provides a unique setting for international interchange in order to define the pathway forward for achieving a cure for Hepatitis B. The workshop will gather the world’s leading basic, translational and clinical experts to discuss the challenges they face, as well as research outcomes.

Delegates will have access to the latest developments relating to a cure, a thorough understanding of new research and ongoing clinical trials, and the well-received and highly popular roundtable discussions with the world’s leading experts.

This workshop has been designed for clinicians and researchers with an interest in the development of a cure for HBV infection.

Do not miss this opportunity to participate in the International HBV Cure Workshop 2019 in Toronto, Canada!

The Meeting Chairs

Harry Janssen, MD, PhD
Toronto Centre for Liver Disease, Canada

Stephen Locarnini, PhD, MBBS, FRC
Victorian Infectious Diseases Reference Laboratory, Australia

Raymond F. Schinazi, PhD, DSc
Emory University, United States

WHY SHOULD YOU ATTEND?

- Discuss new strategies on how to combine different therapeutic approaches
- Propose new endpoints to be used in therapeutic trials
- Review the gaps in evidence essential to finding a cure for HBV
- Stimulate collaborative science to accelerate the development of a cure
